### **TROUBLESHOOTING**

PROBLEM	SOLUTION
Engine does not start after 3 or 4 pulls of the starter cord	<ul> <li>Make sure there is gas in the tank</li> <li>Make sure switch on frame is in the "on" position</li> <li>Check choke position</li> </ul>
No spray is produced when nozzle is turned on	<ul> <li>Check for sufficient liquid in the formulation tank</li> <li>Make sure nozzle is turned on</li> <li>Check spray against a flat surface - it's difficult to see droplets smaller than 50 microns</li> </ul>
